- Charlene.Farias@TexasAgriculture.gov

Past Working Projects

Automated communications between state and industry when a product label has been Returned/Rejected.

- Auto generated email to company stating that label was not accepted by which state
- Auto generated email to company stating contact the following state on why label was not accepted
- Ability for states to email company using a drop down menu to choose why label was not accepted

Communications Implemented in New System

- Auto generated email to company stating that label was not accepted by which state
- Auto generated email to company stating contact the following state on why label was not accepted
